## SUPER MINIATURE TWIN TYPE AUTOMOTIVE RELAY

## FEATURES

- Smallest in its class, it is extremely compact at approximately $2 / 3$ the size of previous products.
It takes up only about two thirds the space and volume of our previous twin type CT compact relay. It is perfect for making compact relay units.
- Compact and high-capacity 25 A load switching.
High capacity control is possible while being compact and capable of motor lock load switching at 25 A, 14 V DC.

## Sealed type

Sealed type makes automatic cleaning possible.

## TYPICAL APPLICATIONS

- Powered windows
- Automatic door locks
- Electrically powered mirrors
- Powered sun roofs
- Powered seats
- Lift gates
- Slide door closers, etc. (for DC motor forward/reverse control circuits)
