

Miniature Cables

RoHS
COMPLIANT

Applications:

- Cable for miniature sensors and transducers
- Strain gage wiring i.e. in machines and automotive
- Transducer internal wiring
- Medical applications
- RoHS compliant

Multicore Cables, shielded

Teflon[®] PFA insulation. Shield and conductors made of silver plated copper. Continuous operating temperature for STC-series -196°C to +200°C. Conductors are twisted. For a specification on the conductors refer to "Insulated wires" below.

Designation	No. of cores	Outer Diameter mm	AWG	Rated Voltage VAC	Test Voltage VAC
STC-36T-2	2	1.03 ±0.15	36	150	1300
STC-36T-3	3	1.08 ±0.15	36	150	1300
STC-36T-4	4	1.16 ±0.15	36	150	1300
STC-36T-6	6	1.35 ±0.15	36	150	1300
STC-36T-7	7	1.35 ±0.15	36	150	1300
STC-36T-12	12	1.72 ±0.15	36	150	1300
STC-32T-2	2	1.43 ±0.15	32	250	1500
STC-32T-3	3	1.51 ±0.15	32	250	1500
STC-32T-4	4	1.64 ±0.15	32	250	1500
STC-32T-6	6	1.93 ±0.15	32	250	1500
STC-32T-7	7	1.93 ±0.15	32	250	1500
STC-32T-12	12	2,53 ±0.15	32	250	1500

Jacket color is white. Other jacket colors are available on request. Designations marked in the table with gray background are typically available from stock. All other designations and custom cables with any number of cores can be supplied at minimum order of 250 meters.

Insulated Wires

Teflon[®] PFA insulation. Conductors are from silver plated copper. Continuous operating temperature -196°C to +200°C.

Designation	Outer Diameter mm	Continuous operating temperature °C	CONDUCTOR SPECIFICATION							INSULATION	
			Cross Section	Compo-sition	Dia-meter	Compo-sition	A W G	Resis-tance	Tensile Strength	Rated Voltage	Test Voltage
			mm ²	AWG	mm			Ω/m	N	VAC	VAC
